

I am

Parent/  
Guardian

I'm trying to

Know whether my child  
is in safe zone and also  
with healthy condition

But

I am unable to  
communicate or detect  
my child when they are  
in outdoor location.

Because

In emergency situation,  
I unable to know about  
the child live location  
and activities

Which makes me feel

Panic and scared  
about my child.
